

January 2011 Synchrotron Based FTIR Imaging Workshop

January 11-13, 2011

A three-day workshop for new and experienced users of Synchrotron Based FTIR Imaging with FPA is taking place at the UW-Madison Synchrotron Radiation Center. The workshop consists of a tutorial on the basics of FTIR spectroscopy (Day 1), followed by sample preparation and hands-on access to IRENI (Day 2), concluding with a day devoted to review of analysis approaches (Day 3). Registration may be for any or all of the 3 days. For more information including registration costs, agenda, and other meeting details, please visit the workshop website at:

http://www.src.wisc.edu/meetings/IR_workshop_2011/

Schedule

Day 1: FTIR 101 – Basics of FTIR Spectroscopy,
Microspectroscopy, and Imaging

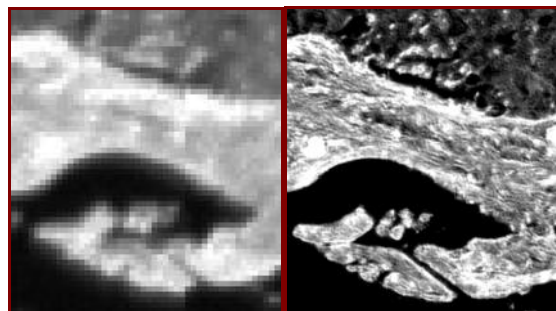

Day 2: Hands on Sample Preparation and Synchrotron
Based FTIR Imaging

Day 3: Spectral and Image Analysis of Synchrotron Based FTIR Imaging Data

Meeting Organizer

Carol Hirschmugl (cjhirsch@uwm.edu)

Thermal Source

Synchrotron Source
